Amendments

Section 9 – the training requirements needed to link with those in section 5

Section 13 – the new CQC section.

Document objectives: The aim of this policy is to provide instructions on storage, handling and cooking of food in order to prevent serving foods containing allergens to patients and make staff or visitors aware of allergen present in foods and drinks that the Trust serves or makes available for sale.

Intended recipients: All Trust staff

Committee/Group Consulted: Nutrition Group, Hotel Services Implementation Group, Estates and Facilities Governance Group

Monitoring arrangements and indicators: Allergen audit

Training/resource implications: On-line Food Standards Agency training

1. **INTRODUCTION**

1.1 All food and drinks served to patients, visitors and staff in the hospital should be allergenically safe and not compromise health in any way.

1.2 The aim of this policy is to provide instructions on storage, handling, cooking and service of food, and be able to provide information on the 14 allergens contained in all food and drinks served or sold to patients, staff or visitors.

1.3 Negligence can result in prosecution by the Trading Standards Officers (TSO's) not only of Somerset Partnership NHS Foundation Trust but of individual Somerset Partnership NHS Foundation Trust employees. Such action may lead to fines.

2. **PURPOSE AND SCOPE**

2.1 The aim of this policy is to provide instructions on training, storage, handling and cooking of food in order to prevent incidents outlined in 1.2 above. The EU Food Information for Consumers Regulations 1169/2011 has come into force on the 13 December 2014. The regulation means that all food business including hospitals must provide allergy information surrounding any food or drinks served or sold.

2.2 The Trust must be able to provide information to patients, staff and visitors about the presence or use of any of 14 specified allergens as ingredients in any of the items served to patients, staff and visitors upon request.

2.3 The local council Environmental Health Officer (EHO) and Trading Standards Officer (TSO) are empowered to ensure adherence to the regulations.

3. **DUTIES AND RESPONSIBILITIES**

3.1 The Trust Board via the Chief Executive has overall responsibility and will delegate such responsibilities to the management team.

3.2 Service Managers, Matrons and Hotel Services Supervisors are responsible for the day-to-day management of their site(s). They will ensure the correct procedures are followed and that all staff are appropriately trained.

3.3 All staff are responsible for following the correct practices and procedures. They are responsible for ensuring their training is up to date and they are accountable for their actions.

3.4 Facilities Manager and Facilities Leads are to ensure that Somerset Partnership NHS Foundation Trust HACCP (Hazard Analysis Critical Control Points) plan is kept up-to-date and any changes are communicated to all relevant staff. All procedure and practices relating to catering must comply with the EU Food Information for Consumers Regulations 1169/2011.

3.5 The Facilities Manager and the Facilities Leads will carry out six monthly inspections of the Trust kitchens and will make and implement any agreed recommendations for improvement. The Facilities Manager and Facilities
Leads will lead on the implementation of the recommendations for improvement arising from the Environmental Health Inspections.

3.6 Provide evidence of the exact ingredients used, such as brand names, and pack sizes, or other information that details what is normally use, ensuring standard recipes are followed as per the Menu/Allergen Best Practice Guide.

3.7 Provide advice and work in partnership with the training department to design an Allergen awareness training package to ensure training is commensurate with their duties.

3.8 Lead and develop the database/allergen folder of information of allergen present in approved product list from approved suppliers and review and maintain the data base/allergen folder as changes occur.

3.9 Ensure the information is accessible to any person involved in preparing, serving, advising or auditing the service.

3.10 Review any Specialist Menus such as Gluten Free and provide professional advice on further allergies as required.

3.11 Display a front of house notice to advise the consumer surrounding allergens information in food and where to seek further advice.

3.12 Provide labels listing allergens present in food for vending machine products produced on site.

3.13 Matrons and Departmental Managers should record which staff are categorised as primary and secondary food handlers and ensure that they receive training as specified with this policy. The departmental manager must ensure that all food and drinks provided within their department complies with the provisions of this policy.

3.14 Ensure that patients with Food Allergies to any of the stated 14 Food Allergens are identified and the facts recorded so that they are available to all Healthcare staff involved in serving food and drinks to patients.

3.15 **All Primary Food Handlers**

By the nature of their work, primary food handlers are involved with food during its preparation, cooking and service. They must ensure that all the general principles and applications within this policy are adhered to at all times.

Follow the local Food Safety Management System Hazard Analysis Critical Control Point (HACCP) for safe storage of ingredients and preparation.

Adhere to the approved buying list of suppliers and products; do not deviate from any standard recipes.

Identify the allergens of any substituted food items received by recording
details on the Allergen log using information from product invoices or delivery notes.

Any permanent changes in allergens must be conveyed to Nursing staff, Facilities Manager and Facilities Leads and the Food Hygiene Trainer.

3.16 Food Service Staff (Nursing Staff, Service Assistants, Assistant Housekeepers)

Give correct and accurate information, staff must not guess or make assumptions when serving meals, or snacks and drinks to prevent cross contamination or the wrong meals being served.

Allergen information can be gathered from the Allergen folder or seek further advice from the Catering Department and Housekeeper.

Allergenic information requested by the patient or family member must not be given verbally but the proper guidance shown to them in the form of the Allergen Folder or label/lid etc.

3.17 Nursing

Implement the process of alerting the Hotel Services staff and Service Assistants as soon as possible when a patient with a food allergy is being admitted.

Implement a process of alerting any beverage service staff as soon as possible when a patient with a food allergy is being admitted.

Identify on admission through the nursing assessment any allergies that a patient has, and ensure that this is documented within the individuals care plan and ensure the Hotel Services staff and Service Assistants are informed.

Make patients and visitors aware of the risks of food brought into the hospital, and the fact that this must not be shared with other patients.

Seek the support of someone with the correct knowledge and/or know where to access this information if required.

Communicate with the Patient, Carers, Ward staff, Caterers and Dietitians to ensure that Allergen safe food for patients is provided, while taking care that the individuals’ nutritional needs continue to be met.

Ensure you wash your hands prior to service and re-wash contaminated.
Wear a clean green apron before you start serving food and drink, change if contaminated.

Manage cross contamination risks by using clean separate serving utensils and oven cloths.
3.18 **Volunteers**

The volunteers line manager must ensure training surrounding food allergens is provided for volunteers involved in food handling and service.

Communicate immediately with clinical staff when patients or carers say the patient has an allergy.

3.19 **Patients and Families**

Inform the patient’s care team at the point of admission of any known food allergies.

If they cannot do so, or lack capacity their family or friends should be consulted as part of care planning.

Have an awareness of the food allergen and other risks of food brought into the hospital by patients or visitors.

The onus is on the patient family member to ask about allergens present in food.

3.20 **Environmental Health Officers (EHO) and Trading Standards Officers (TSO)**

EHO’s and TSO’s are the enforcement officers for this legislation. Hospitals will be visited and any member of the team can be asked about their role and responsibility for the food.

3.21 **Dietetics**

Provide a Dietitian or appropriate member of the dietetic team to all food service locations as a resource for catering and nursing staff.

Assist in providing the correct information for consumers and that this information is kept up to date, however overall responsibility lies with the Facilities Manager.

Provide advice for food allergy patients to ensure food restrictions related to allergies do not harm the patients nutritionally, and that substituted foods are nutritionally adequate and sufficiently varied.

Update the Nutrition Policy to reflect the regulations surrounding the management of allergens.
4. **EXPLANATIONS OF TERMS USED**

4.1 **Allergens**

The EU Food Information to Consumers regulation lists 14 Allergens in the legislation namely:

- Cereals containing gluten
  - Wheat
  - Oats
  - Rye
  - Barley
  - Spelt
  - Khorasan wheat / Kamut
- Crustaceans (eg. prawns, crabs, lobster)
- Eggs
- Fish
- Peanuts
- Soya
- Milk (including lactose)
- Nuts
  - Almonds
  - Hazelnuts
  - Walnuts
  - Cashews
  - Pecan
  - Brazil nuts
  - Pistachio
  - Macadamia
- Celery
- Mustard
- Sesame seeds
- Sulphur dioxide (where added at >10mg/kg or 10ml/L in the finished product)
- Lupin
- Molluscs (e.g. clams, squid, oysters, scallops)

5. **TRAINING**

5.1 **Primary Food Handlers**

A primary food handler is a person who is directly involved in the process of preparing and handling raw and cooked items, or who is responsible for ensuring food is safe to eat.

Within Somerset Partnership NHS Foundation Trust, the following personnel are examples of who would be categorised a primary food handlers:

- Hotel Services Supervisor
- Housekeepers
- Support Workers
- All Catering Staff
- Service Assistants
• OT’s working in Mental Health and others supervising clients undertaking cooking.

All primary food handlers must pass the Food Standards Agency Allergen training. This training will subsequently be built into the Level 2 Award in Food Safety in Catering Certificate. After 2 years the Level 2 Award in Food Safety in Catering Refresher must be taken and every 2 years thereafter.

Undertake the Allergen awareness training from the Food Standards Agency (FSA) webpage as a one off. Thereafter allergen information is included in all Level 2 Training Courses.

5.2 Secondary Food Handlers

A secondary food handler is a person who is involved in the process of transporting prepared food and or serving prepared food and drinks.

All secondary food handlers must undertake a Secondary Food Handling course every 3 years which will include Allergen training.

Within Somerset Partnership NHS Foundation Trust, the following personnel are examples of who would be categorised a secondary food handler:

• Assistant Housekeepers
• Porters
• Ward Based HCA
• Nursing Staff
• OT/Community Staff (Where handling food is part of the role)
• OT’s in Mental Health (Working one to one with patients)
• Support Workers in Mental Health

5.3 Facilities Manager and Leads

Facilities Manager and the Facilities Leads must pass the Food Standards Agency Allergen training.

6. APPLICATIONS OF GENERAL PRINCIPLES

6.1 Procurement and Purchasing of Food

Food will be purchased from suppliers who provide product specifications including the full ingredient lists that include the allergens. Alternatively the information on the food labels will also provide information surrounding the allergens.

Any substituted or alternative item must be recorded on the Allergen Ingredient Log - Appendix A

Do not deviate from order sheets – product specification sheets will be available for all additional items.
6.2 Safe Storage and Preventing Cross Contamination

Once the allergen contents of all ingredients are known and logged, safe storage practices must be used to avoid the cross contamination of foodstuffs: for example sugar could be contaminated by other allergens in the environment if stored near wheat flour and milk powder. Food items need to be kept in sealed containers and accessed using clean utensils to minimise the risk of cross contamination. Where possible store allergenic ingredients e.g. nuts, peanuts, sesame on bottom shelves to prevent them falling into other foods. Larger kitchens may have quarantine rooms to separate these foodstuffs to prevent cross contamination or may keep nuts or peanuts in a special place.

The safe storage of ingredients should be included as part of the food safety management system, or Hazard Analysis Critical Control Points (HACCP) and staff trained accordingly.

Separate toaster to be purchased for gluten free bread (toast) only, ensures storage and usage is appropriate to avoid cross contamination.

6.3 Protocols

This refers to the HACCP and safe storage procedure and will be audited on a 6 monthly basis.

6.4 Sharing the Allergen Information with Consumers

Consumers, (including patients) must be advised that the information is readily available upon request.

6.5 Advising the Customer, Patients and Others

For patients – a statement on all menus ‘Please Note: You must inform ward staff if you know you have an allergy’. You must inform ward staff if you know you have an allergy. Poster displayed at ward level.

When meals are sold to staff and visitors including vending a poster will be displayed stating ‘Further information regarding food allergens is available on request’.

6.6 Supplying the Information

The Allergen information must be in a form accessible to the staff member to enable them to provide the information to the consumer accurately and consistently. It must be clear and conspicuous, not hidden away, easily visible, and legible. Below are some methods that can be used:

- By verbal communication from an appropriate member of staff.
- Standard menus should state that the information is available. Information on menus should be kept to a minimum.
• Allergen Information Folder

• Labels on pre-packed food and drink.

• On internal or external websites.

• Any format that is made available to the consumer, e.g. audio files for deaf people or documents in Braille.

• For vending machines or other unstaffed food services where there are no staff available to answer questions about the allergens in food e.g. home-made sandwiches, then the food items must be individually labelled.

6.7 Food Brought in for Patients by Visitors

The onus is on the visitor to ask about allergens in food.

Food for special dietary requirements will be provided by Somerset Partnership NHS Foundation Trust Catering Department. Supplementary food can be brought in for patients provided that it complies with this policy.

6.8 Meetings, Buffets, Functions

All food provided for meetings, buffets and functions must comply with this policy.

6.9 Staff Food

Food for personal consumption should be stored in a separate fridge to Somerset Partnership NHS Foundation Trust food. All such food should be named and dated. Food should not be stored in the staff fridge for more than 24 hours. Any out of date food will be disposed of.

6.10 Patient Take Away Meals (Mental Health Sites Only)

Take Away Meals brought into the ward by patients. It can be assumed that the onus is on the patient to ask the Take Away Establishment about allergens in the food.

Take Away Meals brought into the wards by staff as part of rehabilitation must be assessed by the Healthcare staff supervising this activity and the onus to ask about allergens is on the Healthcare staff supervising.

7. AUDITS

7.1 Main and Ward Kitchens

Both kitchens must be inspected at six monthly intervals by the following team; Facilities Manager and or Facilities Lead for that location, and a member of the Catering team to ensure food is being prepared in accordance with the Allergen Regulations. The Inspection sheet in Appendix B will be used and any results/actions will be reported back to the Hotel Services Implementation
Group and the Nutrition Group responsible to the Estates and Facilities Governance Group.

An external inspection will be completed by the local EHO or TSO at a period determined by the standard found at the previous inspection. All inspection reports are to be held locally and centrally by Estates & Facilities. The Facilities Manager and Facilities Leads will be responsible for ensuring any remedial actions are completed.

8. **LIMITATIONS**

This Policy applies to all staff employed by Somerset Partnership NHS Foundation Trust including volunteers.

9. **TRAINING REQUIREMENTS**

The Trust will work towards all staff being appropriately trained in line with Section 5 of this policy.

10. **EQUALITY IMPACT ASSESSMENT**

10.1 All relevant persons are required to comply with this document and must demonstrate sensitivity and competence in relation to the nine protected characteristics as defined by the Equality Act 2010. In addition, the Trust has identified Learning Disabilities as an additional tenth protected characteristic. If you, or any other groups, believe you are disadvantaged by anything contained in this document please contact the Equality and Diversity Lead who will then actively respond to the enquiry.

11. **MONITORING COMPLIANCE AND EFFECTIVENESS**

11.1 This policy will be posted on the internet for all staff and will be announced through the briefing system. Staff with specific duties surrounding food preparation and service will be briefed surrounding the contents of the policy at local induction.

11.2 Monitoring and evaluation will be in accordance with the Somerset Partnership NHS Foundation Trust policy and catering procedures in the HACCP document. Details of monitoring referred to as inspection are presented in section 7 of this policy.

11.3 All shortfalls identified will be recorded in the Action Plan part of Appendix B and managed to completion by the Facilities Manager or Facilities Leads in conjunction Ward Managers/Matrons and local caterers.

11.4 All results will be monitored at the Hotel Services Implementation Group responsible to the Estates & Facilities Governance Group.

11.5 All learning from audit will be shared within the Hotel Services Implementation Group.

12. **COUNTER FRAUD**

The Trust is committed to the NHS Protect Counter Fraud Policy – to reduce fraud in the NHS to a minimum, keep it at that level and put funds stolen by fraud back into patient care. Therefore, consideration has been given to the
inclusion of guidance with regard to the potential for fraud and corruption to occur and what action should be taken in such circumstances during the development of this procedural document.

13. **RELEVANT CARE QUALITY COMMISSION (CQC) REGISTRATION STANDARDS**

13.1 Under the **Health and Social Care Act 2008 (Regulated Activities) Regulations 2014 (Part 3)**, the fundamental standards which inform this procedural document, are set out in the following regulations:

- Regulation 9: Person-centred care
- Regulation 10: Dignity and respect
- Regulation 11: Need for consent
- Regulation 12: Safe care and treatment
- Regulation 13: Safeguarding service users from abuse and improper treatment
- Regulation 14: Meeting nutritional and hydration needs
- Regulation 15: Premises and equipment
- Regulation 16: Receiving and acting on complaints
- Regulation 18: Staffing
- Regulation 19: Fit and proper persons employed
- Regulation 20: Duty of candour
- Regulation 20A: Requirement as to display of performance assessments.

13.2 Under the **CQC (Registration) Regulations 2009 (Part 4)** the requirements which inform this procedural document are set out in the following regulations:

- Regulation 16: Notification of death of service user
- Regulation 17: Notification of death or unauthorised absence of a service user who is detained or liable to be detained under the Mental Health Act 1983
- Regulation 18: Notification of other incidents

13.3 Detailed guidance on meeting the requirements can be found at [http://www.cqc.org.uk/sites/default/files/20150311%20Guidance%20for%20providers%20on%20meeting%20the%20regulations%20FINAL%20FOR%20PUBLISHING.pdf](http://www.cqc.org.uk/sites/default/files/20150311%20Guidance%20for%20providers%20on%20meeting%20the%20regulations%20FINAL%20FOR%20PUBLISHING.pdf)

**Relevant National Requirements**

*Department of Health initiatives*

*NICE and other clinical guidance*

14. **REFERENCES, ACKNOWLEDGEMENTS AND ASSOCIATED DOCUMENTS**
