

Our Ref: Q2 17 49

25 September 2017

- *I am requesting information regarding unplanned acute in-patient admissions/ referrals for schizophrenia in relation to Somerset Partnership NHS Foundation Trust.*

A. Out-of-area referrals to other NHS providers

1. *For patients with schizophrenia presenting with an acute psychotic episode requiring an in-patient admission, what is the total number of patients that have had to be directed out of area/referred from your trust to another NHS provider over the past 5 years due to lack of capacity at your trust? (Please provide answers in the table below)*

Year	Total Number of Referrals
2012-2013	0
2013-2014	0
2014-2015	0
2015-2016	0
2016-2017	1
TOTAL	1

2. *To which NHS providers (if any) were these patients referred?*
 3. *How many patients were referred to each NHS provider?*
 4. *By NHS Provider, how many patients referred were admitted for 60 days or longer?*
 5. *What was the average length of in-patient admission for these patients (by NHS Provider)?*
 6. *By NHS provider, what was the cost incurred by your trust in sending these patients to other NHS providers?*
- *Please provide answers to questions A2-A6 in the table below*

Year	NHS provider name	Number of patients referred to NHS provider	Number of patients referred with admission lasting 60 days or longer	Average length of referred in-patient admission (days)	Total cost to YOUR trust resulting from the referrals (£)
2012-13		0			
2013-14		0			
2014-15		0			
2015-16		0			
2016-17		0			

B. Referrals to private (non-NHS) mental healthcare providers

1. *For patients with schizophrenia presenting with an acute psychotic episode requiring an in-patient admission, what is the total number of patients that have had to be directed out of area/referred from your trust to a private (non-NHS) mental healthcare provider over the past 5 years due to lack of capacity at your trust? (Please provide answers in the table below)*

Year	Total Number of Referrals
2012-2013	0
2013-2014	2
2014-2015	2
2015-2016	3
2016-2017	2
TOTAL	9

2. *To which private (non-NHS) mental healthcare providers (if any) were these patients referred*
 3. *How many patients were referred to each private (non-NHS) mental healthcare provider?*
 4. *By provider, how many patients referred were admitted for 60 days or longer?*
 5. *What was the average length of in-patient admission for these patients?*
 6. *What was the total cost incurred by your trust in sending these patients to private (non-NHS) mental healthcare providers?*
- *Please provide answers to questions B2-B6 in the table below*

Year	Name of private (non-NHS) mental healthcare provider	Total Number of patients referred to provider	Number of patients referred with admission lasting 60 days or longer	Average length of referred in-patient admission (days)	Total cost to YOUR trust resulting from the referrals (£)
2012-13		0	0	0	0
2013-14	St Andrews Hospital, Northampton	2	0	38	21660
2014-15	The Dene, Hassocks, West Sussex	2	0	15	6295
