

Our Ref: Q2 17 58

12 October 2017

- *How many endpoints in the Trust are using Windows XP as an operating system and how many have been or are in the process of being upgraded to a more secure and up-to-date operating system.*

Approximately less than 1% of Somerset Partnership NHS Foundation Trust's IT estate has devices that are running Windows XP.

- *If possible could you provide the names of the operating system(s) that have been used to upgrade the endpoints?*

The Trust's mobile devices are currently operating on Windows 8.1 and static PCs are on Windows 7.
